## **InnoTrans 2016, 20 – 23 September, Berlin** **International Trade Fair for Transport Technology** **Innovative Components • Vehicles • Systems**

 **Creating a successful future together!**

Dear Dr. Golubović-Bugarski,

InnoTrans is just around the corner. Alongside the international railway technology experts, this is also the place where the industry's young professionals meet to map out their careers. Take advantage of our comprehensive Career Concept and help the next generation gain a foothold in the industry.

Not only do we offer **reduced day tickets** for students, trainees and pupils (EUR 12.00), but we also organize guided Career Tours, and our centrally-located Career & Education Hall 7.1a is the perfect place to get in touch with HR managers.

We would be very happy if you could inform your students, pupils and trainees about our program for young talents by giving them the enclosed informational material. The flyer provides information about our wide range of career-building offers. If you would like additional materials, we would be happy to send them to you – simply fill out and return the enclosed order form.

Additional information, including purchasing tickets, travel, affordable accommodations, the event program and much more, can be found online at [www.innotrans.com/career](http://www.innotrans.com/career).

Please don't hesitate to contact us if you have any questions. We are looking forward to seeing you and your young talents here in Berlin!

Yours sincerely

*The InnoTrans-Team*

*By the way: 2,761 companies from 55 countries and 133,595 visitors from 146 countries attended last InnoTrans. The rail track and Outdoor Display area featured around 145 vehicles.*
